

Enthusiastically seeking to utilize passion for web design and development to create compelling and effective work.

3+ years of experience in creating websites with exceptional skills in planning, design and development. Skillful at creating user-focused and engaging websites for a wide range of clients in various industries. Excel in building relationships with clients and collaborating with team members to produce quality outcomes. Eagerness to use talents and experience to enhance client business potential in an environment that provides opportunities to add to my skillset.

Experience & Education

Web Developer/Designer

Antidote 71 | Omaha, NE | July 2014—March 2017

Formerly JD Gordon Creative Labs in Sioux City, IA

- > Designed and developed responsive websites for clients in various industries; Primarily created WordPress websites with custom themes and plugins
- > Developed using modern CMSs (WordPress, Expression Engine, Concrete5) and coding languages appropriate to project needs and client requests
- > Maintained legacy websites and used troubleshooting skills to resolve coding and design issues
- > Applied technical SEO best practices to websites; Worked with digital marketing team members to create shareable and searchable websites
- > Worked directly with clients; Directed presentations and facilitated site training
- > Managed and collaborated with internal and external designers and developers; Managed and created tasks, assignments and deadlines
- > Completed print design and branding projects; assisted in team-driven projects
